

GC Council To Receive Sewer Data Wednesday

Citizens' Committee
Recommendation Ready
On Drainage, Pollution

Several years work by an active citizen committee will be nearing its end Wednesday evening when the Master Sewer & Drainage committee will make its recommendations to a master sewer and drainage program and pollution abatement study to Granite City council members.

The final report will be the fourth to be submitted to the council by the citizen group and will include steps to be taken to correct the city's storm water and sewage drainage problems and to provide the city with a sewage treatment system.

The city last summer was notified by state sanitary water board that it would not permit further expansion of the sanitary sewer system until such time as the city has made satisfactory progress toward abatement of river pollution.

While details of the report are not being disclosed in advance of the dinner meeting with the council, the preliminary studies, prepared by the engineering firm of Sheppard, Morgan & Schwab, have a multi-million dollar drainage and sewer program for the entire city, with breakdowns of the system for various sections.

A supplemental report for pollution abatement also has been prepared in cooperation with engineers at local industrial plants and also in the hands of the council.

Two-Year Study
The final report with recommendations is being prepared in two years of the December 1959 date the city was notified of receiving a \$100,000 federal grant to undertake the study.

However, the citizens committee had been at work on the problem, aiding the city in preparing the application for U. S. planning funds and doing preliminary work.

The first major report of the citizen group was presented to the council on May 25, when the overall program was outlined by Engineers Edward Juneau and C. H. Sheppard of the engineering firm. It specified a \$13,200,000 project with the city dividing the 13 sewer districts for its accomplishment.

Since then, the overall project has been broken down into an interceptor system for the purpose of separation of storm water and sewage and construction and operation of a sewage treatment plant. Local industries also have been making their own sewage treatment studies, and Wednesday night's report is to encompass the entire program.

Granite City was asked to notify the East Side Levee District by Dec. 1 of its intention to either join in the district's pollution abatement program or develop its own. The levee district has relaxed the (Continued on Page 5, Col. 1)

Stone Work Being Resumed On Low Water River Dam
Full scale work on the low water dam across the Mississippi river 600 feet south of the Chain of Rocks Bridge is scheduled to be resumed this week after a lull of nearly two months because of high water stage. The \$2,900,000 dam, designed to aid river navigation during low water, now is to be completed next June.

Rocks forming the dam began to appear above the lowering river. Contact last week and an eight-inch dredge was put in operation to remove silt from the rocks and river bottom. This week more huge, six-ton boulders to form a foundation are to be dropped into the river.

Arthur Rabley, project engineer, said the contractors, Massman and Frazier-Davis, have been faced with unusual conditions of an "up-and-down" river. The last time rocks were added to the midstream, upper dredge was mid-October. However, with the approach of winter and freezing of tributary streams, the downward trend of the river stage is expected to be maintained. The creek barrier now protrudes above water for a distance of 700 feet from the river shore. There the dam is tied (Continued on Page 22, Col. 4)

\$3,400,000 Spending By County Proposed

Election, Insurance
Costs Cited; Nursing
Home Fee Boost Studied

Total spending by the Madison county government in 1962 is estimated at \$3,405,185, a tabulation of tentative budget figures showed Friday. Initial information on the proposed plan, for a November 1962 tax referendum, were reported at a press conference the previous day.

The total includes special funds amounting to \$1,535,200, a \$1,411,439 general fund and \$458,546 in fees to be earned by county offices. The budget, first for a calendar year, is up for adoption at the Dec. 20 meeting of the County Board of Supervisors.

The \$2,946,639 appropriation of tax funds compares with \$599,569 for the five-month fiscal year currently in effect, and \$2,636,361 for the last 12-month budget year, 1961, 1960 to July 1, 1961.

The \$130,302 difference between the two 12-month periods includes rise of \$208,905 for special purposes and \$108,497 for general purposes.

Finance Committee Chairman Leslie Prehn estimates a 1962 general fund deficit of \$148,608, but reports \$200,000 in accumulated balances and taxes still to be collected. The deficit estimate is based on levying of a 5.6-cent general rate, as required by an Illinois Supreme Court ruling; authority to return to a 10-cent tax rate will be sought in the election.

Not Serious If Vote Carries
In urging a referendum, Prehn said the county is not in too serious a financial condition at present, due to practical economic conditions and an accumulated cushion from some general fund balances.

But unless the 10-cent rate is authorized, he believes that the county is "going to be in serious trouble by 1963, and it may be necessary to curtail service to the public by closing courthouse offices several days a week."

He said the committee was faced with two alternatives: Either to curtail services to the public and attempt to arrive at a balanced budget, or to maintain essential services and go in the direction of an unbalanced budget with the hope of referendum relief.

Prehn added that the budget is not as austere as that adopted for five-month year, but it has been "stripped and all drastic cuts possible made while still permitting operation of the courthouse services." It was noted that some reductions would result primarily in loss of non-tax funds, and consequently were not approved.

Items cited in the 1962 appropriation are provision for conducting primary and general elections; county building insurance premiums, which fall due every five years; and state legislation requiring additional county services.

Additional Election
Granite City Supervisor Nelson Hagauer, a member of the finance committee, listed increases between the 12-month and five-month periods.

Ministers Reject County's Tavern Hour Compromise

A proposed compromise for a slight shortening of tavern hours on Friday was rejected by ministers in unincorporated areas of Madison county will be opposed by the Madison County Ministerial Association, it was learned today from Rev. Vernie Barnett, president of the group.

Rev. Barnett, who is pastor of Niedringhaus Methodist Church here, said the compromise was proposed after the county association presented petitions to the county liquor commission last Thursday bearing about 4000 signatures of persons seeking a return to shorter tavern hours.

The compromise calls for a 2 a. m. closing for the entire week, Taverns in the rural areas are permitted to remain open until 2:30 a. m. on weekdays and 3:30 a. m. on Sundays.

"It's not acceptable," Rev. Barnett told the Press-Record. "It looks like they are trying to ease out, but we'll have another 1000 signatures on protest petitions by the time the county board meets Dec. 20 and has its annual session on determining tavern policies."

The initial petitions were handed to the county liquor commission during a meeting Thursday at Edwardsville. "We were taken off guard when we were required to debate the issue with the attorney for the Madison County Tavern Owners Association. We learned of the proposed compromise on Friday morning, and it's strongly against the present hours because we feel it will not solve the problem."

Ministers of the county began organizing (shortly after a county board extended the closing hours of taverns during its July session. The county association of pastors was organized as a result of the board's action.

Seek 1 A. M. Closing
The petitions, which will have an estimated 5000 signatures, were presented to the county board of supervisors to repeal its July action extending closing hours in unincorporated areas and revert the hours to 1 a. m. on weekdays and 2 a. m. on Saturdays.

The board last July voted 37 to 4 to extend the closing hours from 1 a. m. to 2:30 a. m. on weekdays and from 2 a. m. to 3:30 a. m. on Sundays.

The ministers presenting the petitions were told the county liquor commission would submit a recommendation at the Dec. 20 county board meeting.

Attending Thursday's session with the liquor commission were Earl Bloomquist, assistant county clerk, and Jim Frey for enforcement. The board will have seven rooms, two baths and garage.

Four commercial permits valued at \$2217 included a \$3700 permit issued to Paul Maykopet, 944 Niedringhaus avenue, for remodeling, general repairs and installing 51 storm windows. Other commercial permits were: (Continued on Page 2, Col. 3)

Christmas Spirit Has Its Reward

Some of the old-fashioned, Christmas spirit still prevails, at least in the Quad-City area.

When Mrs. Clyde Bush of 5112 Marvyn road discovered a package in her mailbox Saturday evening, it was a Christmas spirit that was rewarded. The package contained a letter and a valuable paper was missing. Mrs. Bush told the family she plans for Christmas.

"But at 11:30 that night a young man knocked on our door and returned the billfold intact," Mrs. Bush reported. She identified the man as Tony Stajdhar of 2057 Thirteenth street. "He said he had lost money his father had given him by a truck. The crash scene was a mile east of the Route 111 intersection."

Stajdhar's family has a big Christmas bonus, thanks to his honesty, Mrs. Bush said. She gave him the \$31 as a reward.

Despite icy roads and salt spread by street departments, and generally cautious driving, 37 mishaps were tabulated on local streets and surrounding highways. No serious injuries were reported.

Two men operating a tow truck to pull a car from a ditch along U. S. Bypass 40-66 were injured about 3:15 a.m. Saturday when the tow truck was hit by a truck. The crash scene was a mile east of the Route 111 intersection.

Hodge Appeal Still Undecided; Epping Paroled

(Special from Springfield)

Gov. Otto Kerner announced during a press conference Friday that while he had read for a second time the state parole and pardon board's recommendation on a clemency appeal by convicted former state auditor Orville E. Hodge, he was still undecided on what action he would take.

State house observers are of the opinion the governor might make an announcement later this week or possibly next week, as nothing was forthcoming today from his office.

Edward A. Epping, Hodge's former office manager, was released from parole from Menard state prison on Friday and returned to his home in Lebanon that evening to be with his family.

Epping, 42, who served five years for his role in the state theft, was granted the parole on Nov. 15. He had been sentenced to one to 10 years for embezzlement, larceny and confidence game, and will remain on parole until October 1964. He plans to resume his work as an accountant, and it was reported he will be employed by an East St. Louis firm.

Employed at Granite City Steel Co. before his retirement several years ago, Mr. Coss was born at Grigsby, Ill. He had made his home here in recent years with a son, John, at the Gary address.

(Pansy) McCarty of Granite City and Mrs. Walter (Frieda) Harmon of Edwardsville; a brother, Lige Coss of Laid, Ill.; three grandchildren and 10 great-grandchildren. Funeral arrangements are given in the obituary column.

Crash At Toll Plaza

As Robert Yerber, 41, of 701 1/2 Franklin street, West Madison, halted his car to pay the McKinley Bridge toll at 9:10 a.m. Sunday, the rear bumper and tail light were damaged by the grille, radiator and left headlight of the auto of Dubri Slavoff, 30, Chicago.

Christmas Party

The annual Christmas party of the Afternoon Guild of St. Peter United Church of Christ was held Thursday at the church, 21st street and Cleveland blvd. The noon luncheon was served as the 51 members and guests sang carols seated around tables decorated for the holiday season. As the tables were cleared, Mrs. Hulda Davis demonstrated methods of making the trees and a business session followed with Mrs. Lillian Baunweyer, president, in charge.

A gift was sent by the group to the Elmhurst College Women's Auxiliary for their year's program, and annual reports were read by the chairman of the various committees. Boxes of homemade cookies were packaged to be delivered to the

ins; and the cancer dressing chairman, Mrs. Esther Baumberger, reported 33 donors had made during the past year. The work is done by the ladies twice each month on Thursday afternoons. Another group is the sewing circle which meets at the church every Thursday to quilt.

The Guild will participate in the annual "hanging of the greens" Sunday, Dec. 17, and plans are underway to fill ten Christmas baskets for needy families to be distributed by Protestant Welfare at Christmas.

The following officers will serve during 1962: Mrs. Baumberger, president; Mrs. Estelle Monken, vice-president; Mrs. Edna Winters, recording secretary; Mrs. Margaret Branding, treasurer; and Mrs. Florence Haddale, pianist.

Lions, Trimpe Acclaim Madison's Midwestern Conference Champions

Madison high school's variety football team, the recently crowned champions of the Midwestern Conference, was honored by the Madison Lions club at a banquet Thursday night at the Sportsman's club in Madison.

Guest speaker was Wilbur R. L. Trimpe, Madison County superintendent of schools, who told 25 members of the team and about 75 Lions and guests that one of the apparent reasons for the year-in, year-out success of MHS athletic teams is the early training received by them in the school system.

He also reminded the players that they should consider themselves "privileged to be in an athletic program of this type."

"I can remember when I was coaching at Havana (Ill.) at a time when the school there was so poor that the variety football team practiced in overalls to save uniforms for the game."

"You should be proud of your school district, because it is one of the few in the county which operates in the black year after year," Trimpe said. "You also should know that there is not and never has been a single black mark against Madison high school, either athletically or scholastically."

Trimpe, an athletic coach and official before turning to school administration, was introduced by Toastmaster Ray Draglich, a former MHS athlete and a Madison teacher and principal, now assistant superintendent.

Following the invocation by Rev. Sylvester Mick, assistant pastor of St. Mary's Catholic Church in Madison, and a fam-

ily-style chicken dinner, Draglich introduced those seated at the head table, who included Lions President Al Love, Madison Mayor Stephen Maestas and Madison Supt. of Schools Wilbur R. L. Trimpe. Members of the school board also were recognized.

Maestas told the gathering that while the football team was being honored for its excellent performance (a 6-1-1 season record) this fall, its members also were being recognized as "ambassadors of good will," because they have earned the respect of people in other communities.

Madison Coach Glen Pickering, who also drew his share of plaudits from the speakers, introduced Assistant Coaches Bob Page and Joe Asperger and then the members of the MHS grid team, whom he called "an outstanding group of boys who have ever had on or off the field." He added, "I'd be proud to go with them anywhere."

Trimpe noted that a special set of rules applies to a marked person when he puts on a uniform and represents his school. He called them the "three R's of athletics"—readiness, responsibility and respect.

A boy must be ready, the speaker said, on a moment's notice to play his role, even though he may be a minor one. He must be ready to assume the role of the victor gracefully, or accept defeat.

An athlete must be responsible to himself, his school, coach

and community, Trimpe said, because his own conduct either builds or tears down the reputations of each.

Trimpe, who commented the athlete must have respect not only for himself and his teammates but also for the ability of his opponents. He must remember that there are rules and regulations in life as well as in athletics, and avoid the code of unfair advantage.

"A boy's IQ is important, but so is his 'IQ,'" the speaker concluded. "I'm standing for 'I will,' or the desire to try to succeed, whether it be in the classroom or on the football field."

Lettersmen Recognized

Football lettersmen attending the banquet or recognized by Coach Pickering were George Stewart, Wally Weidner, Ervin Mueller, Don Freeman, Rich Hamilton, Charles Venarsky, Charles Koenig, Tony Eganoff, Calvin Jackson, Delbert Clements, Mick Gravelle, Ed Brady, Ken Gries and Norman Stawley, all seniors; and Gary Skinner, John Olesky, George Russell, Steve Dymke, Terry Anderson and Walt Cooper, all underclassmen who will be back next fall.

Griggs, Pettit, Stawley, Koenig, Dymke and Cooper were members of the Press-Record's all-conference team this year.

Underclassmen who did not letter with the varsity this past season, but who will play next year, will meet heavily next season also attended the banquet. They included Lester, Bob Haines, Mike Konich, Roy Cross, Ted Nizinski, Bruce Webb and Marvin Thomas.

Collinsville Third
Victim Of Braves
The Coolidge Braves surmounted a major hurdle Thursday evening on their home floor by hanging a 52-43 loss on a visiting Collinsville freshman squad.

A naturally happy John Toncoff, coach of the Coolidge ninth graders, commented afterwards: "We led all the way and they pressed all the way, but we were ready for it."

The Braves got good team effort and scoring performances from Chuck Mizerski, who had 23 points, and 5-7 guard Vince Debeve, who looped in 14 markers. Coolidge led at the quarter marks, 16-14, 28-20 and 40-37 and then rolled through the final period to add six points to its advantage.

Undeclared in three starts, the Braves will play Madison's freshman squad in Madison tomorrow at 6:30 p.m.

Meanwhile, the first place Alton Falstaffs increased their margin over second place Cahokia Bowl by sweeping three games from last place Busch Bavarian. The Falstaffs now have a six-game cushion. Cahokia Bowl topped Fairmont Bowl 2-1, and winners by the same margin were St. Louis City Bowl over Ripley Pins of O'Fallon. Early Foul Trouble Again Costly As VHS Falls Before Worden, 72-58

Bothered again by early foul trouble, the Venice Red Devils dropped a Madison-Clinton-Maryland counties conference game to Worden on the winners' court Friday night, 72-58.

The Devils outscored the Trojans by two points from the field, but Worden doubled Venice's production at the free throw line, with Center Ken Daube setting a conference record by converting 22 charity tosses in 27 attempts.

Bill Oltendorff's team had a 12-9 first-quarter lead, but several of his players already were in foul trouble. Ray Shamiro picked up his fourth personal foul just before the period ended.

VHS had to play things cautiously afterward, and Worden took over the lead at halftime, 29-25. By the end of the third quarter, the hosts led 49-38.

Cut Into Lead

Venice managed to pare the Trojan lead to three points (58-55) in the final stanza, but then went cold from the field. Worden countered with a semi-stall, and resulting fouls enabled the club to increase its margin.

Oltendorff made no secret of his displeasure with the game officiating. "The officials didn't call traveling on either club all night, and I even told my boys at halftime to take an extra step."

However, he expressed satisfaction with the play of his varsity club.

"We shot very well, 46% in fact, but those fouls!" Venice was charged with 31, and Worden with 19. Worden converted 32 times from the free throw line, while Venice 16.

Worden took over the conference lead as a result of the victory. The Trojans have a 3-0 mark, while Venice is 0-2 and 1-4 overall. The same two teams will meet at a conference tournament at Worden.

Venice's junior varsity ran its record to 4-1 with a 71-56 preliminary game victory. Paul Sitton, scoring 15 of his 17 points in the first half, led the Little Red Devils in scoring.

Varsity scoring: Venice—Don Devany 24, Jerry Cio 20, James Hornmann 6, Pete Fields 4, Paul Sitton 2, Jim Ebersold 2, Ray Shamiro 0, Larry Miller 0; Worden—Daube 30, Behme 12, Haynes 10, Lamb 9, Loemker 9, Saurwein 2, Radal 0, Schaefer 0.

GC Scores Only 9 Times From Field In 77-30 Battering At Collinsville

Held to 15 points in each half and a total of just nine field goals the entire game, Granite City became Collinsville's 34th straight basketball victim Friday night on the Kahoka court, 77-30.

The last time Vergil Fletcher's state champions suffered defeat came at the hands of a Granite City team in the finals of the regional tournament two seasons ago.

But any resemblance between the two Granite City teams in question was purely accidental and any comparison, at this point, unfair.

The Kahoks, who make a practice of running the opposition right out of the gymnasium with a pressing defense which is as tough as the club's best offensive weapon, used it with authority Friday night.

The Warriors managed only nine baskets, since more often than not they were unable to bring the ball across the mid-court line and set up. And Fletcher, who might be excused for keeping the heat on all evening since his recent football charges were the paties of the conference, applied the zone press throughout.

Lost Third Straight

Andy Sullivan's club, in losing

its third straight, suffered also from a lack of height, giving away two inches per man to the Kahoka's starting five, which combines good size, speed and conditioning, character traits which helped make the press go.

Larry Wortham, a 6-3 backcourt user sparingly heretofore, was high scorer for the Warriors with nine points. He and Guard Jim Proffitt divided evenly six of GC's nine buckets.

Fletcher used 12 players, but his starters gave a good account and any comparison, at this point, unfair.

The Kahoks were in double figures, scoring numerous easy set-ups as the result of stolen balls.

Sullivan, who has starting lineup problems due to injuries, inexperience and ineptitude, also used an even dozen players in at least two dozen combinations.

By halftime, the Kahoks were in command 34-15, and continued application of the press in the third quarter left no doubt as to the final outcome.

SWC Games On Tap

The Warriors top from the trying pan into the fire this weekend. Belleville, figured to be a strong contender for the

conference championship and the holder of a 3-0 record, will come here for a Friday night SWC contest.

The following evening, East St. Louis, which was a surprisingly easy 69-54 winner over Alton Friday night, will tangle with the Warriors at home in another loop encounter. Both varsity contests will begin at 8:15 p.m.

Friday's varsity scoring: Granite City—Larry Wortham 9, Jim Proffitt 7, Glen Hoffman 3, Larry Noblin 3, Charles Papp 3, Bill Boyd 2, Stephens 2, Vic Buehler 1; Collinsville — Matakakis 27, Brennan 19, Bohnenstall 13, Motin 13, Hiles 4, Byrkit 2, Meyer 2.

Warriors Make Short Work Of Shell Matmen, 46-8

Bouts Over In One Hour; 7 GCHS Pins

It required just one hour for Granite City high school's wrestling to dispose of a game but inexperienced mat crew from Roxana at the GCHS gymnasium Friday night, 46-8.

Although they again were shaky in the lower weights, it took Bill Smith's grapplers less than 15 minutes of wrestling time to record seven pins in the bouts.

All but one of the falls occurred in the first period of the individual bouts, with Sam Fazio's pin at 0:42 in the 138-pound division the speediest of the evening.

Encouraging was the work of Skip MacMillan at 112 pounds and Gary Reiss in the heavy-weight division, both of whom scored their first varsity pins. Veterans Buddy Felchlin, Sam Fazio, Eldon Poole, Bob Cruse and Bob Kary all won easily by falls, as had been expected by Schmitt.

SWC Foes Next
Tougher competition, in the form of Southwestern conference opponents, Edwardsville and Wood River, is the work for GCHS. Granite City will wrestle the Tigers there Thursday night and is on the road again Friday evening against the Oilers.

On Saturday, University City, Mo., will be here for afternoon matches at 1:30 p.m. Friday night's varsity results:

Madison's Press, 47-Point 2nd Half Stop Eagles, 84-49; Koseck Hits 22

"Our best offense is our press," declared Madison Coach Earl McClanahan Friday night after his Trojans had dumped Chivis Memorial high school of Bethalto, 84-49.

It wasn't a new statement for the Madison mentor to make—ever since his arrival at the Madison sports scene, Trojan basketball has adopted McClanahan's pressing tactics with great success.

In his first year at the Madison helm, his forces compiled a 19-5 record last year, and they have registered their third straight win this year. Defending champions in the Midwest conference, the Trojans will meet Columbia in the first round of the O'Fallon basketball tournament Wednesday at 8:30 p.m. Madison reserves picked up valuable pressing experience Friday night as they played the en-

Free-man had 13, Bob Haynes 12 and Ed Petty 10. Mick Graville and Ken Griggs each had eight points. Other Trojan scoring—with one exception—Charles "Bozz" Koseck, who has taken the injured Charlie Venarsky's spot in the starting lineup, went to the distance and scored 22 points.

Finest Performance
Koseck's performance was easily the finest in his career, as it was only the third varsity game he had played. A senior, he did not go out for the sport until last year. Then, he had to battle for a starting assignment with the junior varsity.

He played the last 10 minutes of the game, and he was a defense when Bethalto occasionally beat the press. McClanahan was the first to admit it, saying, "I'm still not satisfied with our defense."

Four Hit Double Figures
Offensively, in addition to Koseck's prowess, the Trojans displayed good scoring balance. Don

WHO'S THAT with the ball? It's Madison's Ken Griggs driving for the basket while Bethalto's Jim Pruitt (21) goes high into the air in an unsuccessful attempt to block the shot. The Trojans went on to crush the Eagles 84-49 Friday night at Madison.

Non-Profit Square Dance Group May Purchase Building

"It shall be the purpose of this association to further and promote folk dancing in Madison and square county and the surrounding area and social enjoyment, not only among the members but among the citizenry in the form of providing dances for charitable, fraternal and religious groups or wherever invited without profit to ourselves."

With this objective, a backyard hobby has grown into such a large program that the Quad-Cities are becoming known as the "junior square dance capital of the United States."

And it is about to expand more, including acquisition of a building which has served as the local Jewish synagogue since 1933.

Organized by Mr. and Mrs. Edward "Bob" Boyd, the organization has become known as the Tadpole Squares but has not yet chosen the name to be listed on its charter as a not-for-profit corporation. Incorporation is planned before the purchase takes place.

Would Build New Temple

While not yet completed, sale of the United Hebrew Temple, 1536 Fourth street, could end 28-year history of Jewish religious services at the location. However, the owner, the United Hebrew Congregation of the Tri-Cities, has plans to construct new facilities in Granite City after the building is sold.

Louis Cohen, president of the congregation, said the temple still is being used for observance of all Jewish holidays, although weekly services no longer are conducted there. The proposed building project in Granite City, members of the faith will continue to have a Quad-City religious center.

The 40x70-foot brick structure built in 1933 is regarded as ideally suited for the Tadpoles, whose history dates back only to the spring of 1939. The group's title refers to the beginner status of its members, although many now have become expert dancers.

Ample Facilities

Plans for both the tiled floor, basement and the main meeting room to be used for dance sessions. Activities of different types or of two different age groups could thus be conducted simultaneously. Re-decorating would be carried out.

Major reason for the decision to seek permanent quarters is that there are sufficient interest and age groups to justify regular use of a building nearby every night of the week.

The Madison memorial recreation center, scene of the current Tadpole program, is available only one evening each week, and Granite City park district square dancing at schools is limited to residents and the Nidderhous, Nameoki, Logan and Wilson grade schools.

Plan To Extend

With a home of its own, the organization hopes to expand in size and to broaden its program without regard to residency or scheduling problems. The 100 member families unit at present is expected to be doubled to 200 families as soon as occupancy of the building is assured.

A supervisor and supply cataloger at the Engineer Supply Control Office in St. Louis, reports current participation in Madison by 235 children (from 100 families) and in the Granite City park district by 800 youngsters. He is director of both instruction programs, which teach square and round dances to boys and girls in the eight-to-13 age group.

Children's square dancing on a large scale was founded here by Boyd and his wife in 1939. The family recently moved to 39 Villa drive from the 2000 block of Rhodes street.

It was on the back lawn of the Rhodes street home that the two first began teaching square dancing to their children and to youngsters of neighbor families. The first class in 1939, and the Boys themselves were largely self-taught from recordings.

Began With 11 Youngsters

The original group consisted of 11 youngsters. "It just happened," Boyd recalls. "We started without a plan, intending simply to install knowledge of folk dancing in their children."

Although we enjoy it very much, we found out rather late that we had only scratched the surface. That is, we knew some dances then, but learned that there are so many," the director says, adding that he and his wife have continued to learn along with the children.

First picnic was held in June 1959, with 25 persons going to Monks Mound. The Illinois Youth Commission entered the picture in the fall of that year, arranging for use of a recreation hall at the Garesche Homes housing project in Madison.

Long-Term Purchase Plan

Bake sales and other projects have been planned, and it is hoped to carry out the acquisition early in 1962, with the remaining debt probably amortized over a 25-year period and paid off sooner if possible.

SIU Faculty Balloting On Promotion Methods

Faculty-wide balloting to set up a committee for reviewing promotion procedures is underway at Southern Illinois University. The result might mean recommendations to revise criteria and methods for faculty promotion which have been in effect since 1953.

The review was suggested by the University Council, newly-created policy reviewing body representing the central administration on both the Carbondale and Edwardsville campuses.

Council secretary Max Turner said, "while it appears that few people have been completely satisfied with the present system of promotion through the various ranks, no one has been able to come up with a satisfactory alternative."

SIU's present system for promotion starts with recommendations from department chairmen to their deans who then make up a master list of candidates for review by a council of deans. Separate committees in the council then select promotions in each other's academic divisions to rule out favoritism. Still another committee decides on promotions for faculty members not identified with particular academic divisions.

Turner said one object of the review would be to see if a new system can give faculty members at large more voice in the procedure as well as to develop solid standards of judgment for promotion.

In the election, each faculty member on both campuses will nominate three candidates from the top three ranks—professor, associate professor and assistant professor. No votes will be accepted for the lower ranks or faculty administrators now involved in making or reviewing recommendations for promotion.

Full Public Knowledge Essential If

Levee Board Is To Retain Public Support

Approval of a \$1,853,290 bond issue at an unannounced meeting marks a departure from East Side Levee and Sanitary District trustees' pledge of full public participation in board sessions. A revised approach will be necessary if the board is to continue receiving public support, especially since bond issues after 1962 will require referendum approval.

Board members have denied that the meeting was technically "secret" and have defended the selection of a bond agent without competitive bids. But transaction of major and unexpected business at a special meeting with the public unrepresented inevitably raises the question of whether the officials wanted secrecy.

The trustees' charge that some critics have not opposed similar bond awards by other agencies misses the basic point. Long experience has shown conclusively that the best service at lowest cost to taxpayers is obtained through competitive bidding.

(Editor's note: The following guest editorial, reprinted from the December issue of Quill magazine, is abridged from remarks made by Jenkins Lloyd Jones, editor of the Tulsa Tribune, at a recent meeting of the Inland Daily Press Association. Quill magazine is published by Sigma Delta Chi, professional newspaper fraternity.)

The Stomach-Turning Point

This is still a great powerful, vibrant, able, optimistic nation, Americans—our readers—do believe in themselves and in their country.

But there is rot and there is blight and there is cutting out and filling to be done if we, as the leader of free men, are to survive the hammer blows which quite plainly are in store for us all.

We have reached the stomach-turning point. We have reached the point where we should re-examine the debilitating philosophy of permissiveness. Let this not be confused with the philosophy of liberty. The school system that permits our children to develop a quarter of their natural talents is not a champion of our liberties. The healthy man who chooses to loaf on unemployment compensation is not a champion of human freedom. The playwright who would degrade us, the author who would profit from pandering to the worst that's in us, are not friends of ours. It is time we hit the saddest trail. It is time we revived the idea that there is such a thing as

sin — just plain old willful sin. It is time we brought self-discipline back into style. And who has a greater responsibility at this hour than we, the gentlemen of the press?

So I suggest:

Let's look to our educational institutions at the local level, and if Johnny can't read by the time he's ready to get married let's find out why. Let's look at the distribution of public property and if, far from alleviating human misery, it is producing the sloth and irresponsibility that intensifies it, let's get it fixed.

Let's quit being bulldozed and bedazzled by self-appointed long-hairs. Let's have the guts to say that a book is dirt if that's what we think of it, or that a painting may well be a daub if you can't figure out which way to hang it. And if some beatnik welds together a collection of rusty corks and old cornet staves and claims it's a greater sculpture than Michelangelo's "David," let's have the courage to say that it looks like junk and probably is.

Let's blow the whistle on plays that would bring blushes to an American Legion stag party. Let's not be awed by movie characters with barnyard morals even if some of them have been photographed climbing aboard the Presidential yacht. Let us pay more attention in our news columns to the decent people everywhere who are trying to do something for the good of others.

In short, guys, let's cover up the cess-pool and start planting some flowers.

Well, that's the jeremiad. I never thought I'd deliver one of these. I never dreamed I'd go around sounding like an advance man for the Watch-and-Ward Society. I used to consider myself quite a liberal young man. I still think that on some people bikinis look fine.

But I am fed up to here with the educationists and pseudo-social scientists who have underrated our potential as a people. I am fed up to here with the medicine men who try to pass off pretense for art, the puritane for literature. I am tired of seeing America abused and low-rated in the eyes of foreigners. And I am genuinely disturbed that to idealistic youth in many countries the fraud of Communism appears synonymous with morality, while we, the chief repository of real freedom, are regarded as being in the last stages of decay.

We can learn a lesson from history. Twice before our British cousins appeared heading into a collapse of principle, and twice they drew themselves back. The British court reached an advanced stage of corruption under the Stuarts. But the people rebelled. And in the wild days of George IV and William IV it looked as though Britain was rotting out again. But the people bled through the reform laws, and under Victoria went on to the peak of their power.

In this hour of fear, confusion, and self-doubt, let this be the story of America. Unless I misread the signs a great number of our people are ready. Let there be a fresh breeze, a breeze of new honesty, new idealism, new integrity.

And there, gentlemen, is where you come in. You have typewriters, presses and a huge audience. How about raising hell?

The day will never arrive when wars will be fought without trained men or won by yielding to one's foes.

Classes Could Help Handicapped In

Madison, Venice Lead Fuller Lives

As noted by Gov. Kerner in his weekly column on this page, mental retardation is a problem of serious concern throughout the nation. Madison and Venice school boards, equally concerned, are launching a study of that problem and are planning for instruction of the educable mentally handicapped. The Granite City district already has a full-scale special education program.

Retardation has various causes and occurs in varying degrees. Nearly all victims can be aided, many finding a useful and happy place in society. The obligation for public education applies with equal force to handicapped youngsters, both in principle and for the value of their future contributions to community life.

THE PASTOR SPEAKS

CRAIG R. DILLMAN,

First Methodist Church, Venice

"The Spirit of God hath made me a man, and the breath of the Almighty hath given me life." This statement was made by Elihu when he gave counsel to the patriarch Job, when Job was undergoing great suffering.

Why did God make us? God made us for his pleasure. The Apostle John recorded in Revelation: "Thou art worthy, O Lord, to receive glory and honor and power: for thou hast created all things, and for thy pleasure they are and were created." We are a part of that creation. We were made for God's delight, satisfaction and pleasure. That is what is our duty. Our duty is to please God at all times. "So whether you eat or drink, or whatever you do, do all to the glory of God."

The end of the matter: all has been heard. Fear God, and keep his commandments; for this is the whole duty of man. For God will bring every deed into judgment, with every secret thing, whether good or evil. With Christ's help we can please God in this world. We can find God's purpose for making us. "For the grace of God has appeared for the salvation of all men, training us to renounce

irreligion and worldly passions, and to pot-sob, upright and godly lives in this world, awaiting our blessed hope, the appearance of the Son of God and a Savior Jesus Christ, who gave himself for us to redeem us from all iniquity and to purify for himself a people of his own who are zealous for good deeds.

A tall grandfather's clock 140 years old stands in a Connecticut structure that was built in colonial days. Inside the dark cherry wood case is this verse: "I serve thee here with all my might to tell the time both day and night. Therefore example take from me and serve thy God as I serve thee."

Games filled the remainder of the evening.

The Lady Bugs, an organization of the Veterans of Foreign Wars, met Thursday evening with Mrs. Dan Broyles in Mitchell. The Lady Bug Club, Mrs. Lillian Smith, president, and arrangements were made by the group for a Christmas party on the evening of Dec. 20 at the home of Mr. and Mrs. William Redmond in Mitchell when they will entertain their husbands. A gift of a teddy bear was presented to Lady Bug Joan Stanton for her new son. Roy Marburger of Nameoki, who has been employed in Montana for the past seven months, returned home Thursday. According to his story of his trip, he had no difficulty in securing better wages than is generally paid for similar work in this community. Living costs though, he said, are so much higher than here, he found that the higher wages were no advantage and for that reason, he came home.

The various club groups are planning their annual Christmas parties and among one of the first held this year was that of the Past Chiefs of the Pythian Sisters lodge last Thursday evening at the White Pig Inn. The party featured a dinner at eight o'clock, following a very brief business session. The dining room was adorned with the holiday colors and the long table at which the members were seated held a gaily decorated tree as a centerpiece and was festooned with tall red candles. After the meal and the gifts were distributed, games were enjoyed and those

Fields, 17, is serving his fourth year as class president, and has been active in various school organizations and athletics. He is the son of Mr. and Mrs. Peter Fields, 112 Abbott street.

Crowning their successors were the retiring king and queen, Philip Smith and Miss Betty Jo Turner.

Second attendants were Miss Marilyn Hasty, 17, daughter of Mr. and Mrs. Benjamin Hasty, 704 Third street, and David Devany, also 17, son of Ed Devany, 1018 Third street.

In addition to the crowning of the new yearbook king and queen, the program featured a variety of acts by Venice students. The Venice school band, under the direction of Irvin Ballard, played professionally for the coronation ceremony.

Attorney General Rules On JP Authority, Fees

Justices of the peace and police magistrates now have authority to hear cases of persons charged with driving autos while their driver's licenses or permits have been suspended or revoked. Attorney General William G. Clark has held in one of several rulings announced today in Springfield.

In cases where the defendant is found guilty of such violations, Clark's opinion advised State's Attorney Bruno W. Stanek of Lake county. It is mandatory upon the justice of the peace to impose the minimum sentences and optional fine provided by statute. The justice is without power to grant probation in lieu of the statutory sentence, the opinion said.

The opinion also held that under state law, a justice must turn over all fees to the county treasurer, while fines received for violations of city ordinances are to be paid into the city treasury. A police magistrate, the opinion held, should pay over into the city treasury all fees, fines, penalties and forfeitures resulting from violations of city ordinances.

In another opinion, given to State's Attorney Richard R. Cross of McHenry county, Clark held that a justice of the peace may issue a warrant at the county jail but it must be made returnable to his office in the district from which he was elected.

A township road commissioner may ask county aid in construction or repair of a bridge wholly or partly within the township, Attorney General Clark also held.

Such aid may be asked, State's Attorney William G. Ridgeway of Jackson county was advised, when cost of the bridge will exceed 2% of the full, fair cash value of all taxable property in the road district or municipality and when the tax rate for the last two preceding years has been at the statutory limit.

A widow may receive benefits under the Teachers' Retirement System as a dependent beneficiary if he received at least half of his support from his teacher-wife for the 12 calendar months immediately preceding her death, Clark has ruled.

Once such a widow has begun receiving benefits, the opinion held, they cannot be discontinued because his financial status materially improves.

UF Award Winners Told Drive Will Reach 95%

Further gains in this year's United Fund campaign and the prospect of reaching 95% of the \$298,462 goal was announced Friday afternoon by General Drive Chairman Sidney Aubrey during an awards ceremony at the YMCA auditorium.

Aubrey said total contributions and pledges are at the 93.8% mark, amounting to \$279,974, and that division leaders now are in the process of making contacts for all cards not completed during the official drive and recalls on individuals and firms that did not pledge as much as last year.

"We've held conferences with division chairmen and we hope the final windup will be completed in time for Tuesday's meeting of the United Fund board of directors."

"It's been a tough campaign," Aubrey continued, "but the latest report brought the total up \$150 and we should go to 94% or 95%."

Reporting on division percentages, Aubrey told the group the Industrial division has hit 92.2%; Industrial Employees, 93.7%; Commercial division, 97.5%; Public Employees Division, 95.6%; Municipal Units, 100.9%; Special Gifts and Profession division, 88.4%; and Organizations division (worried by mail), 61.3%.

11-Point Program For GC Fire Dept. Set Up By SIU Team

(This is the 47th in a series of articles based on a reorganization study of city government in Granite City by Southern Illinois University.)

An 11-point program for Granite City's fire department is included in the governmental study of city operations by SIU who stress — training six police officers (two on each police shift) to respond to fires properly equipped to work as a fireman under direction of the fire chief; employment of nine additional firemen for one man to be added to each of the three pumper companies and purchase of a new 750-gallon per minute pumper with a company of five men to be stationed at the main station.

Recommendations for improvements to the fire protection activities in the city are contained in the inspection reports by the National Board of Fire Underwriters (1938 and 1952) and the Illinois Inspection Bureau (1950). This latter report has not yet been received from the Inspection Bureau.

"These recommendations cover not only the fire department but also the water system, building codes and inspection and other related city activities as well.

Inspection Reports
"The fire department recommendations summarized below are not intended to replace those made in the inspection reports

They should be considered in addition to the recommendations in the inspection report. Where a lesser recommendation is made, the recommendation in the inspection report should be considered the ultimate goal.

"Not having the report of the 1950 survey has caused difficulty in formulating and coordinating our recommendations for improvements in the fire department with the inspection report should be considered the ultimate goal.

"Improvements in the staffing and equipping of the fire department, the subject of major recommendations in the NEFU inspection report should be staged as follows:

"Train and utilize six police officers to respond to fires properly equipped and to work as a fireman under the direction of the fire chief.

"Recruit nine new firemen so that one man can be added to each of the three pumper companies.

Purchase one new 750 gpm pumper with a company of five men to be stationed at headquarters.

Recruitment, Promotion
"The Board of Fire and Police Commissioners should improve its recruitment and promotion procedures in the following ways:

"(a) — A set of rules and regulations of the board should be drawn up stating the procedures for recruitment, examination, appointment, promotion, suspension, removal and retirement of personnel.

"The board should take a membership in the Public Personnel Association, 1313 E. 51st street, Chicago. They would benefit from their publications, reports and services — particularly in testing.

"(c) — Examinations for recruits should stress general knowledge, intelligence and aptitude and not require knowledge of firemanship. Promotional examinations should stress firemanship and administrative abilities. All promotions except to chief should be by competitive examination.

"The present training program has recently been started and the department plans to expand it. A needed item for a comprehensive training program is a training tower.

"It should be designed to include a joint fire training facility, rope, rescue and salvage operations used in firefighting and should include a smoke room, a joint fire training facility on an area or country-wide basis should be considered.

Prevention Activities
"The training program should cover the department fire prevention activities. Companies should accompany the assistant chief on his inspections so that every man would become familiar with the conditions in each building. Plans of attack should be developed in the classroom training sessions for fighting hypothetical fires.

"A library of books and periodicals should be set up in the department with a record of reading done by the men posted in their service record. Periodic tests on reading material should be given before the men are allowed to read and training activities inside the department and outside and letters of commendation should count as part of the promotional examination.

"A training course for fire administration should be set up with attendance required of all officers. The course should be drawn up by an outside expert.

"A special training course lasting at least 10 days should be given all recruits before they are assigned to the fire area.

are assigned to companies, particularly in the fire area.

"Thought should be given to the possibility of establishing a large scale complete fire training area which could be used jointly by all fire jurisdictions in the county or on an inter-municipal basis for the departments in the adjacent metropolitan area.

"A more rigorous fire prevention program should be adopted including:

"(a) — A fire prevention code establishing rules and regulations and minimum standards.

"(b) — Records on buildings and regular annual or semi-annual inspections of all public buildings should be made and current records kept.

"(c) — An enforcement program under the direction of the assistant chief and with the cooperation of the building inspector is needed to assure compliance with the regulations. The proper notice forms should be designed and followed.

"(d) — The fire prevention record should be used in the training program and the assistant chief should accompany the inspector on his inspections so that every man would become familiar with the conditions in each building. Plans of attack should be developed in the classroom training sessions for fighting hypothetical fires.

Mutual Aid Plan
"The mutual aid plan for fire departments should be formalized in written agreements. The chiefs should get together in a committee to work out the provisions for differences in hose and equipment and letters of commendation should count as part of the promotional examination.

"A site for a new fire station should be selected and reserved in both the site and the design of the building."

Soil Conservation
Deadline Is Dec. 31

The established final date for completing soil conservation practices approved during the past year under the agricultural conservation program is Dec. 31, 1961. This statement was issued today by Edwin C. Reithmeier, chairman of the local Agricultural Stabilization and Conservation committee.

"It should be clearly understood," Reithmeier said, "that the deadline is absolute and final for the practices of limestone and rock phosphate. These materials must be applied by Dec. 31, in order to earn payment under an existing approval.

However, for certain other practices such as ponds and pasture development, a limited extension of time may be granted if requested by cooperator provided the project can be completed. Farmers finding themselves in this position should call at the county office as soon as possible to discuss this matter.

"In addition to completing the work by Dec. 31, 1961, it is required that a proper report of performance be filed at the county office by Paul E. Ashford, 44 of 1630 Third street, Madison. Brook's car then struck a utility pole. No injuries were reported. Brooks was fined \$50 plus court costs.

'Tree of Lights' Fund Aids The Deserving And Needy

Somewhere in Granite City there are five children who may have very little to look forward to this Christmas.

The children are in school, and their mother is active in school affairs. Their father, who worked for years in a local factory, is ill with an incurable disease. The family is striving courageously to take care of itself. But when the regular bills are paid, little is left to provide the things of which a child dreams on Christmas Eve.

There will be a bright spot in this family's Christmas, however. They have applied for — and will get — assistance through the Salvation Army's 1961 "Tree of Lights" fund.

For Christmas there will be a basket of groceries, including a chicken for their holiday dinner. There will be some new toys for the children. If other items were needed more Christmas baskets to all the eligible applicants. This year's campaign has a goal of \$2500, and the same is set for next year, when it was surpassed by \$200.

May Give By Mail
Contributions to the fund are needed now. They can be made at the Salvation Army office at 1921 Olive avenue, or sent by mail to P.O. Box 338, Granite City.

For every \$25 given, a new light on the Christmas tree in Memorial Park is illuminated. Only when all 180 bulbs are lighted will there be enough light to supply something for all the less fortunate who have called for help.

Christmas is a time when little children should be happy; it is a time for generosity — a time for giving.

When those with abundance contribute to the "Tree of Lights" fund, those who have nothing to give in return but gratitude are the beneficiaries. Which receives the greater reward?

Walker says, but he has reached the age at which, lacking a special skill or training, job opportunities are few.

Aged Also Helped
There are others in the community who have appealed for help.

"Of all the applicants I see," says M. Walker, "I think the most tragic are those who are aged and alone."

"It is hard to believe," the commander adds, "but many of these older people are living at a bare subsistence level. Some have less than \$8 a week left after paying their rent."

Regardless of the specific circumstances, all who receive help from the "Tree of Lights" fund have one thing in common. Without the aid, they would have very little at Christmas.

Last year, the Salvation Army's fund was sufficient to supply Christmas baskets to all the eligible applicants. This year's campaign has a goal of \$2500, and the same is set for next year, when it was surpassed by \$200.

St. John Lutheran To Hold Pageant

The second pre-Christmas Advent pageant of St. John Lutheran Church will be presented Wednesday at 7:30 p.m. in the church of the Advent worship service.

The title of the pageant is "When Jesus Was Born," and it will be produced by O. T. Potter, assisted by the pastor, Rev. Samuel. The young people of the senior and Bible class department will take the leading roles, all in proper costumes.

The senior choir will offer the Christmas hymn "Angels We Heard on High" with Mrs. J. C. Cell at the organ. The pastor will serve as narrator and will deliver the brief sermonette.

The following Wednesday evening the pageant will be "Prince of Peace," and it will be the most elaborate of the three.

Friday evening, the Young People's Society of the church, with Michael Henke as president, will visit the St. Louis Lutheran Children's Home, in Des Peres, Mo., for a Christmas program which will include caroling, entertainment and gifts.

More Jobs Open Now In Education Field

More opportunities for positions in education, and about the same number in business and industry as a year ago, are noted in the annual Southern Illinois University Placement Service report, completed recently at Carbondale.

Reviewing the 1960-61 placement year, Dr. Royce Bryant, director, said that in business and industry, "the demand was greatest for engineers, accountants, recreation personnel, chemists and marketing personnel."

He also said that job opportunities for college graduates with the federal government appeared to be on the increase, and that the demand for elementary teachers exceeded the demand for secondary teachers. Of 329 of 1325 Southern graduates who went into education, 33.4% stayed in southern Illinois.

He reported that 297 interviewers came to Southern to recruit the 1961 graduates for teaching positions and 240 for positions in agriculture, business, government, industry and social work—the largest of any year except 1957 and representing a 16 per cent increase over the previous year.

For teachers, the average annual salary for the 1961 bachelor's degree elementary teacher was \$4505, a 4% hike from the previous year; for the secondary teacher \$4592, a 3.1% increase; for master's degree elementary instructors \$5620, a 7% growth, and for secondary teachers, with a master's \$5524, a 4% boost.

Overall, of the 1325 graduates, Bryant reported, 40.7% entered teaching; 22% business and industry; 21.9 graduate school; 7.5 went into military service; 3.6% didn't want employment; 2.4% were unemployed.

Management, Reading, Law Courses For Adults

Effective management, Illinois labor law and reading improvement are the titles of three adult courses which will be offered during the winter quarter of 1952 at the Edwardsville campus of Southern Illinois University, according to E. R. Castevens, supervisor of SIU's industrial and technical programs.

The course in effective management has been revised and improved, according to Castevens, and will be offered at both the Alton and East St. Louis residence centers. Classes will be held from 7 to 9:30 p.m., beginning the week of Jan. 8, and will run for 12 weeks. Interested persons may register at room 224 on the East St. Louis campus from 7 to 9:30 p.m. Tuesday, Jan. 2; and at the business office of the Alton center on the same date at the same hours. Classes will be taught on Mondays in Alton and on Wednesdays in East St. Louis.

The course covers the basic approaches to effective management and attempts more depth than most courses in the program. Emphasis is placed on organizational relationships with other groups, such as labor and the community, and the development of the personal skills of management.

The course in Illinois labor law is a new one, and will be offered at the Alton center only beginning Jan. 9 and continuing on Tuesday from 7 to 9:30 p.m. through March 27. It is open to anyone who works with labor law in this state, and covers labor legislation now in effect with special emphasis on those laws most recently enacted. Registration dates are the same as for the management course.

The reading improvement course will be offered at both extension centers on Tuesdays in Alton and on Fridays in East St. Louis from 7 to 9 p.m., beginning the week of Jan. 8 and running for 12 weeks.

All three courses carry certificate credit but no degree credit.

into concrete filled piping, which also is to be covered with rock.

The river, where the dam is being located, is 3000 feet wide and 260,000 ton of rock, ranging from six-ton boulders to crushed rock of road gravel size, is being used in the construction.

Work was started officially on Oct. 26, 1950, when a riverbank ceremony was held. The dam is the first of its type ever to be built.

Its purpose is to hold back water to provide a nine-foot channel at the downstream gate of the Alton locks. River traffic has been hampered there during low water stages because of the silts under the lock gates. It has been necessary for barges to be lightened in order to float over the silts.

The dam will be completely under water when the river stage reaches 30 feet.

Contract bid for the construction was in the amount of \$2,945,043, and a year before work was started on dam construction, a \$328,055 contract was awarded for recruitment.

Four persons were injured, including a two-year-old girl, Thursday about 3:15 p.m. when a westbound station wagon, driven by Mrs. Marie F. McKenzie, 36, of 2900 Morgan street, collided head-on with an eastbound auto on West 19th street, stopped between the Union Star and Refining Co. plants, with owner Lucy Boyer, 28, of 3000 Cayuga street, behind the wheel.

MRS. NINA BIGLEY March of Dimes To Be Headed By Mrs. Nina Bigley

Mrs. Nina Bigley, 2016 Amor avenue, has been named chairman of the 1962 Quad-Cities March of Dimes campaign, scheduled to begin Jan. 2 and run through Jan. 31.

The appointment was made by Terry Brennan, chairman of the Illinois chapter of the National Foundation for Infantile Paralysis.

Active in past Cancer Society campaigns, Mrs. Bigley is securities representative for Waddell & Reed, St. Louis brokerage firm.

"The 1962 March of Dimes will support one of the most potent medical programs ever launched against chronic crippling disease," Mrs. Bigley said in accepting the appointment.

The March of Dimes organization, she noted, while continuing its 24-year fight against polio, is also attacking crippling birth defects and arthritis.

"Funds are needed to support research which offers real hope of discovering preventives and cures for these diseases," Mrs. Bigley said. "This is the program which developed first the Salk vaccine and then the Sabin vaccine—exclusively with March of Dimes funds."

In addition to supporting such research, Mrs. Bigley said, March of Dimes funds are now used by chapters of the National Foundation in many parts of the nation to establish or support special treatment centers and evaluation clinics where specialized treatment and diagnosis can be given.

The 1962 March of Dimes campaign goal will be announced soon, Mrs. Bigley said.

Total figures show earnings in the office of \$30,008, with actual revenue of \$29,614 and expenditures of \$20,979.
